## Spring is in the Air!

Spring is here (whether it feels like it or not), which means it's time for your latest industry roundup!

In this edition of the Business Insider, we cover the latest on IoT innovation, give you the skinny on edible packaging, tackle the issue of cannabis odour, eliminate restroom maintenance pain points and more. It's all here to help you find new ways to improve efficiency and quality, increase productivity and lower costs. Dig in!

---

## Supply Chain Evolution

Maximizing efficiency is important to any business, but for Bunzl it's a critical factor in our ability to perform for our customers. Supply Chain World magazine recently featured Bunzl Canada, showcasing how we've achieved efficiency gains and performance improvements in our supply chain, from end to end.

### Sun Now Considered a Workplace Hazard

With temperatures rising, it's important to protect outdoor workers from the possibility of dehydration and heat stroke on the job. But there's a commonly overlooked workplace hazard to put on your radar that's hiding in plain sight: sun damage. Did you know that outdoor workers have a 3.5 times greater risk of developing skin cancer than indoor workers? Find out more about how to protect your staff this season...
