HOW CAN YOU IMPROVE CLEANING QUALITY, CONSISTENCY AND VALUE?

WE'RE GLAD YOU ASKED.

Bunzl Cleaning & Hygiene delivers smart solutions that enhance your building's image, increase quality and sustainability, improve tenant retention and reduce costs. We recommend the right products, equipment and technology to make your cleaning program more efficient and effective.

FACILITY ASSESSMENT

Protecting building assets prolongs their life. Our complete Facility Assessment delivers a customized program to help your cleaning contractors keep your buildings' assets looking and performing their best. Our cleaning and hygiene specialists will recommend the right suite of products and cleaning protocols to address surfaces and spaces in a single facility, or across your property portfolio.

TODAY'S BUILDINGS SERVE 35% MORE WORKERS THAN THEY DID FIVE YEARS AGO*

CLEANING FOR HEALTH

Looks are important, but the criticality of sanitizing and disinfecting can't be stressed enough! Our experts will assess your building's hand hygiene and disinfecting programs, reviewing products, dispensing formats, tools and technology. We'll recommend integrated solutions that include products, equipment and education – all proven to improve overall building health and wellness.

FIT-FOR-USE INNOVATION

New products. New technologies. New ways to wow your tenants with proactive maintenance and prompt, efficient service. From digital restroom management and monitoring, to new advances in cleaning such as robotic equipment, i-Mop, Battery Vac Pacs, and intelligent, controlled dispensing for chemicals and paper. Our global sourcing makes world-class innovation in cleaning technology, data collection and reporting a day-to-day part of your business that delivers measurable ROI.

COST REDUCTION AND AMORTIZATION

When it comes to cost management, the right products, processes, training and quality measures generate substantial ROI.

Replace outdated dispensers and completely upgrade your restrooms without budgeted capital costs through our dispenser amortization program. Ensure consistent product use and quality from property to property while generating annual rebates through the Bunzl Directed to Buy program.

The result: improved building service quality and consistency, reduced maintenance costs, better tenant retention and a healthier bottom line.

SUSTAINABILITY

Sustainability is a core business goal for tenants whose employee and customer perceptions are enhanced by sustainability programs and certification. We can help improve your ESG scores and move you, and your tenants, closer to achieving sustainability targets for LEED, WELL and BOMA Best with a wide range of high-performing, sustainable product options.

TRAINING

Hands-on training, live demonstrations, webinars, videos and more – your building service contractors will benefit from the latest techniques and tools, master cleaning best practices and review fundamentals when trained by our experts on your buildings' customized cleaning programs.

24/7 EQUIPMENT SERVICE & SUPPORT

Well-maintained cleaning equipment delivers optimal performance. Our comprehensive equipment repair and preventative maintenance service is available right across Canada to maximize equipment uptime and service life. And, we service all major equipment brands, 24/7.

CLEANER BUILDINGS. PERIOD.

Bunzl's customized Facility Solutions are the difference between buildings that perform, and those that outperform. Let's talk about what we can do for yours.

GET BUNZL WORKING FOR YOU.
