

# *TEAR. CLEAN. REPEAT.*

## INTRODUCING THE EMBASSY® PERFORATED ROLL TOWEL

A new hybrid between a professional kitchen and roll towel. Perforated sheets deliver a precise tear and added efficiency to every job.

A fresh clean take on a dirty task.

# MAKE SANITIZING AND QUICK CLEAN-UPS MORE EFFICIENT IN YOUR COMMERCIAL SPACE

Crafted from our highly absorbent Embassy® roll towel, the Embassy® Perforated Roll Towel is a new hybrid that boasts the longer length of a regular roll towel, with the quick, clean-tear function of a professional kitchen towel.

- Easy to tear, perforated paper towels offer **efficient and controlled dispensing**, resulting in less waste overall
- Longer than a traditional kitchen towel roll, the Embassy® Perforated Roll Towel is **ideal for busy, commercial-use spaces**, reducing the amount of times an empty roll needs to be changed
- Offers better absorbency when compared to kraft or low-quality white rolls, making clean-up quick and easy
- 8" sheets are the **ideal size for frequent sanitizing** of high-touch surfaces like counters, tables and doors
- Rolls fit on most standard kitchen towel stands/holders
